C-PACE for Retrofits: Maximizing Value of Existing Buildings

Webinar
4.28.20

Commercial Property Assessed Clean Energy (C-PACE) loans are designed to help property owners lower their operating costs with clean energy solutions that increase efficiency and reduce carbon emissions. Philadelphia and Pennsylvania have officially joined this national movement to enact their own C-PACE programs. As C-PACE loans grow in popularity, developers, lenders and advisors must navigate this changing landscape.

Join White and Williams LLP and CounterpointeSRE for the third installment of a four-part webinar series. This segment will discuss how C-PACE financing can help owners and service providers maximize the value and performance of existing buildings in Philadelphia and throughout Pennsylvania.
